Subject: RE: Benton Harbor Status Check in

Hi Candice:

Thank you. Please provide us with an update tomorrow morning based on conversations with MDHHS at that time. Even if you don't have definitive information, I'd like your take on the following questions, and any other information you think we should have.

- How are we feeling about the likelihood of a successful partnership with MDHHS for either options 1 or 5?
- When do we think the team will be in a position to make a recommendation about which option to pursue?

Much appreciated.

Elizabeth Cisar

Attached is the requested options paper for the proposed lead study in Benton Harbor based upon currently available cost estimates. The costs and other considerations included in the paper will need to be refined as we find out more from Michigan and our R5 and ORD labs.

Please let me know if you have questions.

Candice
